

Support 2 solutions:  
① Printing with AB films  
② Directly printing with glue for gold labels

Print more faster  
Higher precision and better quality

Printing, laminating and take-up  
Automatic all-in-one UV DTF printer

# HS 60E4-K-UV-DTF

PRINTING AND LAMINATING AT THE SAME TIME

**WEIGHT  
KING  
334KG**

**Stability test**  
a small coin can stand evenly on the printer when printing.

Very stably

High resolution

Makes printing much more smoothly and stably

## SPEED KING

high speed as 10m<sup>2</sup>/h  
Daily production can reach as 80m<sup>2</sup>  
Easy to meet large orders requirement

## Develop a special glue to avoid of head blocking

Taotech has developed special glue for UV label  
Our glue has viscosity after curing, so the head don't block when printing

## WITH EPSON I3200 4 HEADS

Faster speed and higher resolution  
Top-level UV transfer DTF printer

## EPSON BOARD

use more stable optical fiber board

# HS-60E4-K-UV-DTF

## Printer Parameters

| Machine size          | 1880mm*900mm*1470mm (L x W x H)                                                      |
| Packing size          | 2130mm*1080mm*1500mm (L x W x H)                                                     |
| Weight                | Net weight: 334KG Gross weight: 440KG                                                |

## >> UV DTF Transfer Label << Latest hollow self-adhesive process

suitable for most of materials

Can be put on different smoothly flat or curved surface metal products

Metal products

Bamboo and wood products

Plastic packaging

Packaging gift-boxes

Glass products

Ceramics

Widely applications

Suitable for many industries

### AB films UV DTF Transfer Label Applications

Packaging gift-boxes

Plastics

Steel and aluminum

Glass and ceramics

Leather materials

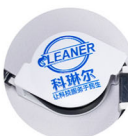

House building materials

### Direct printing with glue UV Transfer label applications

Paper package

Plastics

Steel and aluminum

Glass and ceramics

Leather materials

House building materials

## Mature UV Label printing project

2 years experience on with AB films and UV Transfer label with direct print with glue  
The finished product has good primary viscosity, temperature resistance and long-term effect

**Direct printing with glue + gold stamping varnish 9-color**

UV labels can be put on paper bags, gift boxes, etc.

**AB films White - Colorful - Varnish Process**

UV labels can be put on tea box, metal, plastic, ceramics, etc.

**Varnish + partial gold stamping 10 colors**

UV labels can be put on wine bottles, high-end private customized gift boxes, etc.

**Ordinary UV label partial hot gold stamping:**  
The colorful design surface with varnish

**Taotech reverse varnish partial gold stamping:**  
Colorful design is also covered with varnish, gold stamping process and varnish effect coexist

## Yacht logo direct printing with glue UV Transfer label applications

— Long-term outdoor application is still solid and intact —

## UV transfer label production complete solution provider

Not only provide UV DTF printer, but also provide a complete solution of UV transfer label production

With rich UV transfer label production experience, avoid of problems for you
